

Entrepreneurship: Addresses the travel and tourism industry, which is very broad and covers all areas of interaction with people who travel for business and recreation.

**A.A.S. In Small Business Management
A.A.S. Option in Entrepreneurship
1-Year Certificate in Entrepreneurship**

“In order to generate successful leaders we have to provide them with education, cultural knowledge, traditional values, traditional respect, firm identity and self-confidence, attitudes and social values which is the basis for quality native leadership. Look to our culture for the methods used to awaken the spirit within that generates success in all individuals on their educational path. (Eagle Flag, 1995)”

Computer Network Technician

Computer technicians on the Blackfeet Reservation are in great demand. The curriculum centers on teaching students to design, build and maintain computer networks.

A.A.S. In Computer Network Technician

CISCO Certifications:

CCNA & CCNP

A ++ Certification

Blackfeet Apprenticeship Program

An on-the-job training process supplemented with related technical instruction, career counseling and job placement provided to apprenticeship participants by the apprenticeship coordinator...

In keeping with the mission of the Blackfeet Community College the institution offers:

“Relevant vocational programs of high quality that lead to appropriate Associate Degrees and certificates.”

Vocational education is a part of the total education program that prepares individuals for gainful employment in the **WORLD OF WORK.**

Heavy equipment construction:

Heavy Equipment Operator

CDL

Flagger Certification

Will prepare the student to operate several different machines: scraper, backhoe bulldozer, front-end loader, crane, roller, sheep’s foot and grader. CDL training will enable a student to be a commercial truck driver, taxi cab driver or bus driver.

Goals of the National Vocational Education Programs:

Provide 2-year A.A.S. Degree programs, 1-year certificate programs, and short-term training and occupational renewal programs.

Job preparation in specific areas of occupational needs in the community, region, state and nation.

Respond to worker needs by providing access to training or re-training.

Identify programs that provide occupational education courses to prepare individuals to meet the needs of the world of work.

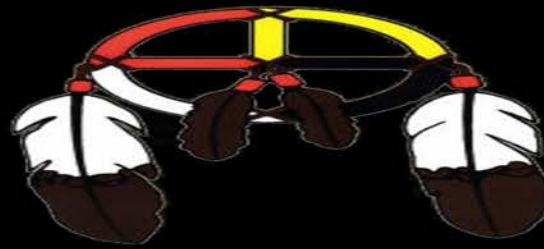

Incorporate career counseling, exploration and cooperative work experience.

Provide supportive services including apprenticeship participation and job placement.

Course work and continuing education.

Internships.

Short-term training and workshops.
